The prices of the fuel in Germany are still record. With our neighbors in Luxembourg, gasoline and diesel, on the other hand, are significantly more common. We say what to consider when replenishing the border. Gasoline and diesel in Luxembourg are significantly more common than us a simple reason. With our little neighbor, the state defines prices in gas stations. The liter of super gasoline (95/e5) is currently around 1.73 euros (from 14.3.2022). WASSERBILLIG/TRIER THE HIGH FUEL PRECISIONS IN More and more fuel tourists are driving over the border. Some of Luxembourg fully charge the car with canisters. This is not allowed. More ... Wed. 9.2.2022 12:00 p.m. On noon SWR4 Rhineland-Palatinate do I have to pay taxes with us when refueling in Luxembourg? In principle, fuel that is carried out from a different EU country is a import tax-free. However, there is a clear regulations, according to the customs: "Fuel only drew energy-tax-free from an EU member state if it is in the tank of your vehicle or in reserves. Reserve accompaniment not objected. " Complex canister regulation in Luxembourg according to ADAC is not allowed to take a reserve shorter EM Luxembourg with you. The press spokesman for the Luxembourg police Frank Stoltz: "In Luxembourg, 20 liters of fuel will be carried out in an additional reserve canister." This regulates the Luxembourg Straßen Transport regulations (Code de la Route). However, this regulation only applies if the fuel carried out is not intended for the operation of motor vehicles and only for the transport from the first petrol station. Canister tips for Germany The experts of the DEKRA from security areas advise you not to take more than ten liters of fuel in a reserve canister and this canister exclusively in the trunk, well secured and far away from the diet in Germany But have up to 240 liters of fuel in canisters in the car. You should not add more than ten liters in the reserve canister in the vehicle from security gaps, the DEKRA. Picture alliance / Report services Christin Klose, however, can hold a canister a maximum of 60 liters. In principle, reserve canister must be carried out (RKK) "Having, closely, can be broken and childproof. The container made of plastic should be replaced after the last years. The price is obviously associated with costs and, in case of doubt, the driving time. Our tip is therefore: connect your fuel stop to the EU neighbor with a relaxed weekend trip. It can save. More... Compare prices and drive in moderation. If you also live Far from the border, you are worth it for every price comparison of individual gas stations online via app Updated specialists or replenishing in the appropriate surroundings. According to an ADAC study, gasoline and diesel prices on working days between 20 and 21h45 are usually at a low daily rate. You should avoid the tank stop on the way to work, according to the experts. Those who take a way in moderation and forward and, in case of doubt, exchange the car for short distance against the bike, can also save money. Fuel prices increase and increase. This guarantees this and frustration. The liter of diesel is more expensive than ever. This attracts German drivers to the very common countries, such as Luxembourg. The prices of State-defined fuels have increased enormously in the Great Duchy. Is it worth a fuel stop in Luxembourg for the Germans? © Photo: Felix Kästle/DPA The price of Great and Diesel made a huge leap. The Super E10 was 14 cents expensive per liter, diesel, up to 23 cents.Above all, it is gross, which is strongly increased as a result of the secretary of the ukrary. This is why tanks tourism increases in neighboring sizes. But is it worth recharging your batteries abroad? What about combustible prices in Luxembourg? The city of Wasserbillig is directly located at the border with Germany and attracts fuel tourists. The places Echternach, strikennmacher, Remich and Schengen are equally popular. Especially over the weekend, many trips to Luxembourg is supplying. On the night of Wednesday (9.3.2022) on Thursday, the prices of the fuel in Luxembourg Pink explosively. Diesel increased more than 38 cents per liter, E10 by 23 cents and super 98 by almost 17 cent. 96 EuroBei also increasing the prices in the neighboring paàs, is it worth a fuel stop in Luxembourg? According to Adac Saarland, it is more recommended with a large car and a correspondingly large tank volume. If there is less containment of the tank, the path is worth only if you live in the part of the border and have a travel route at a 40 -kilometer meter, for example, Losheim or Saarlouis or when you you Connects the trip to buy caf © or a tour. Combustable consumption for the front ride and for the trees must also be taken into account and wear on the trip. If you want to take a bowl with you: a 20 -liter mother is allowed in Luxembourg. Before replenishing, ADAC recommends comparing independent web portal prices such as Clever-Tanken.de or the "ADAC Fritprise" application. In addition, you must recharge your batteries at night. It is the most common.
